Master of Accounting

Master of Accounting Overview

More than a Professional Accountant

The Master of Accounting programme at HKU Business School offers three streams: Accounting Analytics and Big Data, Financial Reporting and Valuation; and Strategic Management and Corporate Governance which provide students the option to choose according to their interests and career aspirations. They may also consider double concentrating if there are any two they are particularly passionate about. Our comprehensive curriculum is

accredited by ACCA, CPA Australia, CIMA and HKICPA, and students on this programme benefit from our professional partnership with ACCA and KPMG. The programme explores theories on the importance of accounting roles in executive decisions, preparing you to be professional accountants, financial experts and future business leaders.

An Li (Alumni)

Associate, M&A Deals, PwC Shanghai (Class of 2022)

“ I appreciate the hard work of the professors. All of them provided deep insights and sharpened our skills in accounting. Apart from that, some courses in the programme use unique teaching methods, which I think is impressive since it requires active participation from the students. Overall, although I am from accounting background, I think the learning experience is wonderful and I believe it is worthwhile joining the programme. The programme is quite challenging because of its tight schedule. That being said, I do not think you have to give up all your leisure time in order to have a good grade. Instead, conquer the difficulties, I think it is quite important to be organised and try to learn things efficiently. Work hard and play hard. In this way, you can find a study-life balance.”
